information	
AQUA DESIGNER	AQUA DESIGNER Basic treats the two worksheets for the dimensioning of continuous flow systems DWA-A 226 and DWA-A 131 "Dimensioning of Single-Stage Activated Sludge Plants". Aeration, based on the DWA-M 229-1and phosphate elimination according to DWA-A 202 are also included. With AQUA DESIGNER you also design sequencing batch reactors (SBR systems) according to DWA-M 210 and membrane activated sludge systems according to DWA-M 227. SBR = sequencing batch reactor MBR = membrane activated sludge system
AQUA DESIGNER PRO	With the PRO version of AQUA DESIGNER you purchase one or more single-user licenses. All single-user licenses must be installed and activated separately.
AQUA DESIGNER NET	If you want to use AQUA DESIGNER on several PCs in a network, you need AQUA DESIGNER NET. This version can be installed on any number of PCs. The basic version includes one user license. The company license is worthwhile for 10 or more simultaneous users.
AQUA DESIGNER EDU	There is a special price for teaching, e.g. for universities or colleges (EDU = education). Please contact us at software@bitcontrol.info.
